## PROJECTS

### MIXTAP

Vue.js, AWS, Express.js, PostgreSQL, Knex.js  
<https://mixtap-dj.firebaseio.com/#/>

- DJs upload their mixes
- Users can search those mixes to find and save their favorites by criteria of artist, title, or genre tags

### LIVEWIRE

Vue.js, Express.js, Node.js, PostgreSQL, Knex, Cypress  
<https://livewire-f9c1f.firebaseio.com/#/>

- Small venue event management.
- Artists request to book available dates, venue can reject or approve. On approval, event is posted for the public to see

### TACO-TACO

Vue.js, TacoFancy API  
[taco-x-taco.firebaseio.com](https://taco-x-taco.firebaseio.com)

- Takes user "feeling" to generate targeted base ingredients
- randomly generates remaining taco components independently for maximum possibilities

## EDUCATION

### WEB DEVELOPMENT IMMERSIVE

Galvanize, Denver, CO - 02/2018-08/2018

6-month immersive web development course with exposure to the full JavaScript stack. Emphasis on agile and paired programming, reflecting a real-world development environment. With over 1000 hours of industry training, this program is preparing me for the challenges ahead. Graduating August 2018

### LAW AND SOCIETY

Purdue University - 09/2003-04/2007

- President, Phi Kappa Sigma Fraternity
- Alpha Phi Omega Community Service Fraternity
